Now Is the Time

Last week Hawaii Dairy Farms (HDF) released their Final Environmental Impact Statement (FEIS). This proves they plan on fighting Friends of Maha'ulepu (FOM), the residents of the South Shore and all of Kauai, who oppose their industrial dairy. As Bridget stated in her Letter to the Editor, published in The Garden Island on January 24th, FOM welcomes the chance to finally expose the clearly flawed industrial dairy plan.

From the very first meeting FOM held, we explained that, based on its history, the Hawaii Department of Health (HDOH) will likely approve HDF's industrial dairy in one form or another. HDOH has not rejected an EIS in the last 30 years. The only way to shut down this operation for good is to challenge any approval of HDF's FEIS in the State Environmental Court and, if necessary, the State Supreme Court.

~~This will take a significant amount of money. Now is the time to open your checkbook.~~

This will take a significant amount of money. Now is the time to open your check books and send the largest possible tax-deductible donation to FOM.

We have only 60 days from any approval in which to submit our challenge. The necessary funds must be in the bank immediately in order to ensure that attorneys and experts can begin and complete their work in the allotted time.

The Board of Directors of Friends of Maha'ulepu believes that we have overwhelming proof and conclusive scientific evidence on our side for the best possible outcome.

As we work tirelessly to stop this potential travesty from occurring, we ask for your support. Please send your tax-deductible donations to:

Friends of Maha'ulepu, Inc.
PO Box 1654
Koloa, HI 96756

Or go to our website: friendsofmahaulepu.org to "[Donate Now](#)"
