

WE LOVE KAUA'I

Learn about corporate outsiders, their plans for Kaua'i and the risks they may pose to our water, 'aina and way of life.

Hear Paul Cienfuegos, nationally renowned 'Community Rights' educator and organizer, who has successfully helped communities from California to Iowa. He will share information on what we can do now to protect our precious Kaua'i from harmful industrial operations. You are invited to attend an island wide community meeting with Q&A:
